

Declaration regarding Per- and polyfluorinated substances (PFAS)

Products produced by Nord-Lock AB may contain per- and polyfluorinated substances, also known as PFAS.

PFAS that may be present in Nord-Lock products are:

- a) Polytetrafluoroethylene, also known as PTFE, CAS no 9002-84-0
- b) Polyvinylidene fluoride, also known as PVDF, CAS no 24937-79-9

PTFE and PVDF is present in products used for surface treatment of Nord-Lock steel products. Nord-Lock standard range stainless steel washers¹ are not treated with this kind of surface treatment products and do not contain any PFAS.

PTFE and PVDF are not subjects to any regulation within the European Union.

PFAS restricted within the European Union are listed in Annex I of (EU) 2019/1021, also referred to as the POPs regulation. Products manufactured by Nord-Lock AB do not contain any of the substances listed in Annex I of the (EU) 2019/1021.

The table of substances listed in Annex I of (EU) 2019/1021 can be found here:

<https://echa.europa.eu/sv/list-of-substances-subject-to-pops-regulation>

Disclaimer:

The above data is based solely on information from our raw material suppliers. Nord-Lock AB has not conducted any tests to determine the presence of any per- or polyfluorinated substances (PFAS).
